

## FARM RULES

As a guest on our farm we want you to be informed of a few basic laws of nature and rules on the farm. Our intent is for you to have an enjoyable, safe and entertaining experience today.

This is a real-life working country farm in a natural, rural outdoors Ozark setting.

NO Smoking allowed anywhere except at the only designated smoking area up front.

There are uneven walking surfaces and naturall uneven and sometimes rough variations in the beautiful hillside terrain. Walk slowly and enjoy. If you need a walking stick bring one.

Out in the open air countryside there are things that fly over, crawl under and buzz by in between, things that bite and things that sting, plants that smell good and some cause a rash or a scratch. It's Nature, come prepared.

All animals use their mouths for eating and communicating. For your safety and the animals, please keep all of your body parts away from the mouth of any animal.

Be respectful and courteous to all the plants and animals. This is their home too.

Parents and Guardians please keep close supervision on your children at all times.

***“One day in the Country is worth ten in town, any day.”***
